Number of Subscribers by Age Group

Business Recommendations

- **Expand 4G & 5G Access:** Partner with phone brands to offer cheap 4G/5G upgrades, since these devices offer the highest revenue
- **Market the stable network:** Use our load-shedding resilience as a core marketing tool to win over remote workers and businesses
- **Attract younger users:** Create youth-focused digital plans to attract more young people.
- **Protect the Gauteng market:** Reinvest network budgets into Gauteng to protect our largest revenue-generating province
- **Move Prepaid to Hybrid:** Launch budget-friendly hybrid plansx to shift top-performing prepaid users (60.2% of revenue) into steady monthly contracts
- **Promote Digital Payments:** Offer data bonuses to move customers away from manual vouchers and towards automatic debit orders.
